

MSP Reseller Partner Program

High-Value, High-Margin Services That Open New Doors

Why Partner With eSurelTy?

At eSurelTy, we designed our MSP Reseller Program to do more than just add another line of business — it's built to help you win new clients, expand wallet share, and dramatically increase profitability.

Our mission is simple: empower MSPs to deliver enterprise-grade cybersecurity, risk management, and compliance services without the overhead or complexity of building it all in-house.

High-Value, High-Margin Offerings

 eSurelTy solutions are engineered for **profitability**. Our services are turnkey, scalable, and priced to give partners the margins they deserve. You bring the relationships — we bring the expertise, technology, and support that elevate your brand and boost your bottom line.

Open Doors to New Logo Opportunities

 Our specialized services — from **Penetration Testing to vulnerability management and GRC services** — are exactly what prospects are asking for. When you lead with eSurelTy's advanced offerings, **you position your MSP as a trusted cybersecurity authority**, instantly differentiating yourself in competitive bids and RFPs.

White-Label and Co-Brand Flexibility

We work the way you do. eSurelTy solutions can be delivered under your own brand or co-branded to highlight the strength of our partnership. Either way, your clients see a seamless extension of your MSP's capabilities.

Expertise That Sells Itself

Our team of cybersecurity professionals, compliance experts, and analysts become an extension of your sales and service delivery teams. We help you scope, propose, and close deals faster — giving you confidence in every engagement.

Solid Results

Our MSP partners achieve:

- 30–50% margin improvement on security-focused deals
- Higher client retention through risk and compliance services
- Access to new industries (healthcare, finance, energy, education, and more)
- Faster close rates on new logo opportunities
